

Gear Mitigation Areas

C-Plot Instructions

1. Save the .mid and .mif files to your C Drive or to an external hard drive/USB storage device.
2. Launch C-Plot Max Pro
3. Double right click to bring up the Main Menu
4. In the Main Menu click Chart - Manage - Boundaries - Browse
5. Navigate to the files, select the .mif file (the .mid files will not be displayed) and click OK
6. Choose a display colour and then click OK.
7. The boundaries will now be visible in the Chart Plotter.
