FishCatchWA™

A new tool for your tacklebox

Record your West Coast demersal catch quickly and easily

Get insights on your demersal catch

Provide timely data and contribute to the science

The FishCatchWA™ tool on the ServiceWA app is part of the State Government's support package to boost the recovery of West Coast demersal stocks.
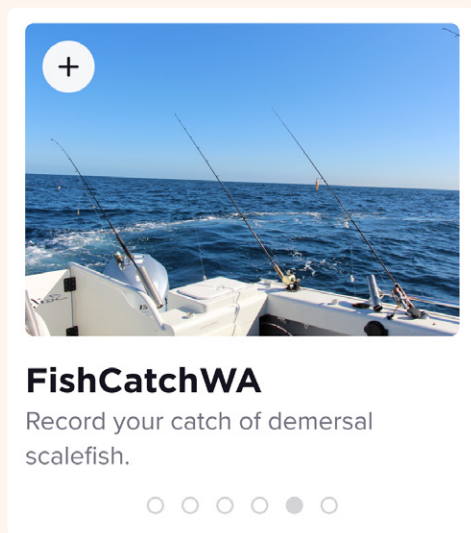

Near real-time information is collected on demersal catches including WA dhufish, pink snapper, baldchin groper and breaksea cod.

This is **only** for reporting catches of key demersal species in the West Coast bioregion.

Your catch data remains confidential.

Set-up

Simply record your West Coast demersal catch by heading to the FishCatchWA™ tool on the ServiceWA app on your mobile device.

FishCatchWA

Record your catch of demersal scalefish.

Follow the prompts and confirm your postcode, then record your catch.
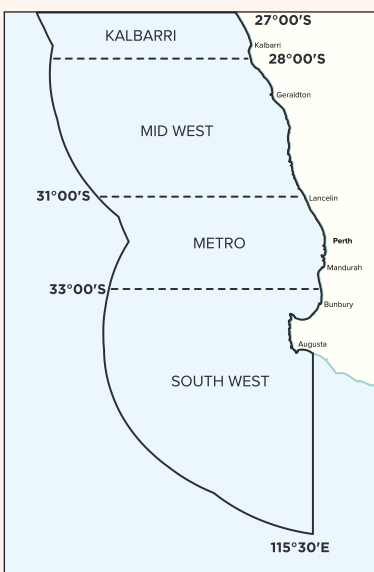

How to record your catch

To record each demersal catch, select '+ New catch' button at the bottom of the screen.
